

# TRANSFORMATION

## AREA

This is where transformation issues are anchored. These areas help to group and order the shifts.

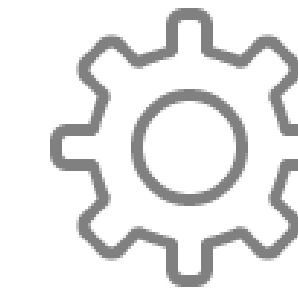

## SHIFT

A shift contains the description of the change within the transformation phase.

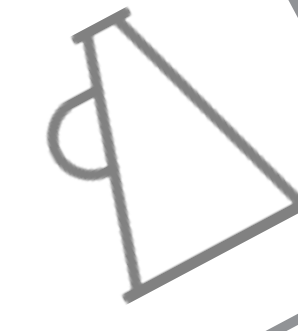

## OBJECTIVE

The objective description for visionary or long-term goals.

## KEY ACTIVITIES

The visualization of the key activities helps to determine the effort of the required resources.

## DEPENDENCIES & RISKS

The dependencies and risks listed here help to achieve the expected benefits as safely as possible from the outset.

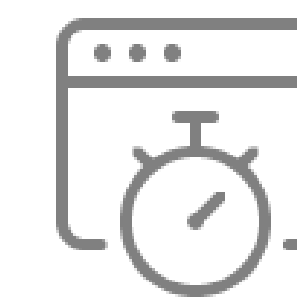

## BENEFIT

The transformation shift is always linked to a benefit. Through the benefit, a next level within the transformation process should be reached.

## SHIFT RELATIONSHIPS

Relationships to other shifts show on the one hand the complexity of the transformation process and on the other hand the prioritization is supported.

## KEY RESOURCES

The key resources define time expenditure, costs and comrades-in-arms. In addition, there are the necessary tools for implementation.
